SAS Library

Bibliotecas no inicio do trabalho

SAS Library

Definidas automaticamente pelo sistema

MAPS, ... – Mapas em diversos formatos

SASHELP – Metadados de toda a sessão do SAS

SASUSER – Permanente para um único usuário.

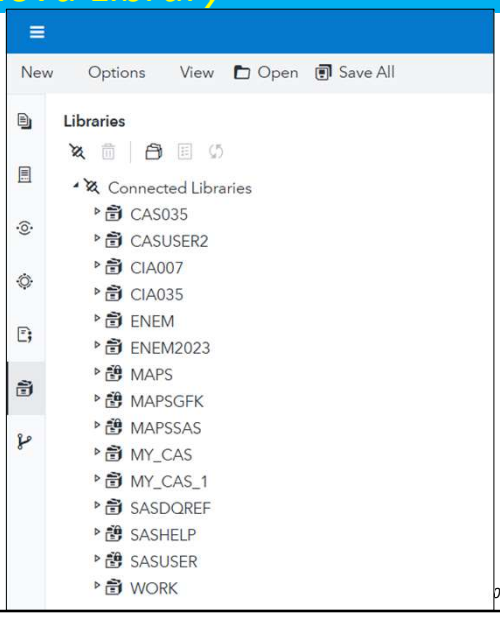

WORK

- Temporária, iniciada a cada sessão do SAS.
- O conteúdo é apagado no encerramento da sessão SAS.
- É o default se o nome da library não for especificado na programação.

Library Customizadas – são tipicamente configuradas pelo administrador SAS.

Muito agradecido
a todos
pela atenção!
